

# Certificate of Compliance

On Behalf of the International Antimicrobial Council, Scientific Advisory Board

**THIS CERTIFIES THAT**

**N9 World Technologies Private Limited (N9WTPL)**

Plot no 53-57 KIADB Bommasandra Industrial area, Phase - 4, Anekal Taluk, Bangalore 560099  
India

has completed all testing required by the International Antimicrobial Council to substantiate the claim of odor control due to the reduction of microbial growth. Samples treated with EPA registered antimicrobial agents at approved use levels have been tested at the IAC and have demonstrated antimicrobial activity that meets or exceeds 40 washes. These samples have been certified at the DIAMOND level as determined by the International Antimicrobial Council. This certification pertains to those products that were tested by the IAC in the IAC Verification Program and remains effective with quarterly compliance testing. Those products are representative of the products manufactured by the textile mills during the audit period covered by this certification.

Covered Products ProTecht SLP Pro-Fresh
