

PAO

Plant-Based Anti-Odor

Technology Benefits:

- Absorbs and neutralizes odor for long-lasting freshness
- Applicable for natural, synthetic, and recycled fiber blends
- Compatible with other functional finish technologies

Sustainable Values:

- Composed of bio-based, renewably sourced raw materials
- PAO bio-based raw materials do not require extra irrigation, pesticides, or GMOs during the cultivation process
- Durable, eco-friendly finish
- Reduces the need for frequent launderings to empower consumer sustainability
