

**SOLADEL™**  
**UV SHIELD**

# WEARABLE SUNSCREEN

While sunlight is a very important source of nutrition, the ultraviolet (UV) rays of the sunlight pose a major risk potential for our skin. Dermatologists suggest applying sunscreen on a daily basis to guard your skin from the harmful UV rays, especially for children who generally have thin and sensitive skin.

What if there was a way this sun protection was incorporated in one's daily routine, like simply wearing clothes? Well, there is. Soladel UV Shield is carefully designed, not just for protection but also for comfort. Its UV shield textile finish effectively filters harmful UVA & UVB rays from penetrating the garment and affecting the skin.

UPF 40+

Designed to Block > 98% UV Rays

Durable Broad Spectrum UVA & UVB Shield

Highly Effective and Easy to Integrate

Long Lasting UV Shield

Safe & Sustainable

No Impact on Fabric Breathability & Handling

# SAFE & SUSTAINABLE CHEMISTRY

Safe & sustainable chemistry that provides excellent UV shield - well validated through International Test Standard AATCC 183

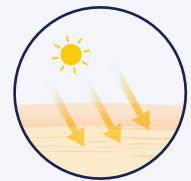

No More Sun Burns, Ageing Skin, Erythema or Skin Damage

## How long does the protection last?

Soladel UV Shield protects you round-the-clock from harmful UV rays. However, UPF can vary depending on the structure, thickness and material. The UPF needs to be determined on different textiles based on the closed textile surface.

Soladel UV Shield Treated

Untreated

UPF 40+

Safe & Sustainable

Long-lasting Protection

Round-the-Clock
