

What is ProTecht® For A More Sustainable You?

A functional finish brand that contains a portfolio of innovative, ethical, and sustainable technologies that empower product development and strategy while also providing the ability for consumers to be more sustainable in how they use and maintain the products that they know and love.

Who is involved with the technology brand?

 ProTecht® For A More Sustainable You is owned and managed by SANITIZED (USA), Inc. and products are globally available through our Co-Producer Network. Each Co-Producer is strategically located around the world to provide technical and marketing support. Services provided by our Co-Producers are in English and in the local language.

What is QD?

An advanced dynamic drying technology that rapidly wicks perspiration from the skin and transfers moisture to the fabric's surface, for evaporation, leaving the wearer comfortable and dry. Treating fabric with QD also reduces the static cling during wearing and improves the fabrics soil release properties.

The utmost care is taken in validating and utilizing the best materials, systems, and procedures in sourcing, processing, and manufacturing for each ProTecht® technology.

- ✓ Moisture Wicking
- ✓ Dynamic Drying
- ✓ Anti-static
- ✓ Soft Touch
- ✓ Designed for PES
- ✓ 20 HL Durability
- ✓ High Compatibility
- ✓ Easy Application
- ✓ Cost Effective

Testing Methods

QD is evaluated for performance and validated according to recognized industry testing standards:

- ✓ Moisture Wicking : AATCC 197
- ✓ Drying: AATCC 201
- ✓ Antistatic : EN 1149-1

Suitable Applications

- Fiber-Types
 - 100% Polyester
 - Polyester-rich Blends
- Application Methods
 - Padding
 - Exhaust
 - Spray
- Category Uses
 - Activewear
 - Workwear
 - Outdoor wear
 - Socks
 - Innerwear
